OREPAC

EnLiten™ Flush-Glazed Designs

for Classic-Craft®, Fiber-Classic® & Smooth-Star® Doors & Sidelites

Durable by design.

Simplified beauty. Resilient designs. At Therma-Tru®, we believe your door should always welcome you home – while playing seamlessly into your style. Our EnLiten flush-glazed designs create striking profiles that effortlessly combine indoor and outdoor living spaces, inviting in more natural light than ever. The possibilities are endless, giving you doors that perfectly fit your lifestyle.

Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

11% More Energy-Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

Withstands Winds Up to 167mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

Up to 16% Wider Daylight Opening

Let in more natural light with up to a 16% increase in visible glass area compared to a conventional lite frame.

Create a Seamless Entrance

Long-Term Performance

Glass built directly into the door during manufacturing offers long-term performance.

- 1 Polyurethane Foam Core**
Surrounds the glass, helping to provide durability and strength and eliminate potential pathways for air and water.
- 2 Dual Adhesive Weather Seal**
Provides high-performance protection inside and out to help prevent air and water infiltration.
- 3 Black Tape**
Helps prevent finish weep between the door and glass, eliminating the need to mask or scrape – simply finish and cut tape.
