		Stic	king P	rofile: [B=Bead	ed, CB	=Cove	and Be	ad, C=	Craftsm	nan, S=	Steppe	d Stick	ing, O	=Ovolo		

^{*} Assuming standard bore machining (2-1/8" diameter bore), outer stile measurements listed above must be no less than 3-3/4" in order to accommodate a 2-3/8" backset on the lock hole. For 2-3/4" backsets, outer stile measurements must be no less than 3-13/16". If lock bore machining is less than the outer stile measurements listed above, all lock bore drilling must be done within the lock rail for best appearance and performance. Outer stile dimension may vary 1/4" from the measurements listed above.
