

Fire-rated doors play an integral role in the safety of your home and loved ones. Our fire-rated doors are most commonly used as a passage door between the house and adjacent garage (as required by most building codes). The doors on these pages are certified by an authorized testing agency and have a 20-minute fire rating.* In addition to their safety attributes, our doors are available in a variety of styles and species to match your desired look.

ROGUE VALLEY
Door

★ EXCLUSIVE ★

Exclusively offered from Rogue Valley Door**

Rogue Valley Door upgrade available**

9083

Shown in knotty alder

** Rogue Valley Doors may have minor stylistic differences when directly compared to Builders Choice doors. Due to the natural characteristics of wood, color and texture may vary between doors of the same species.
