

Decking Accessories

The right hardware for the job.

Little details – like fasteners – make a big difference. You can choose hidden fasteners for a smooth, flawless surface or a face-fastening system with color-matched plugs for a neat, polished finish. Either way, you'll have a secure space and a look you're sure to love.

Phantom[®] and Tiger Claw[®]

Phantom Universal Hidden Fastener

- The new Fiberon[®] Phantom Universal Hidden Deck Fastener is easy to install, helps minimize lateral board movement and works with most leading grooved composite decking brands.
- Black HDPE fastener with pre-inserted screw practically disappears between deck boards.
- Carbon steel-coated screw helps prevent rust and corrosion.
- Patented “teeth” help prevent lateral board movement.
- Pre-inserted screw enables easy one-touch installation.
- Self-gapping design ensures consistent 3/16-in. spacing between every board.

Phantom GT and Phantom EC

Tried and true, Fiberon Phantom GT, Phantom EC and Phantom 20EC fasteners ensure lasting hold in a traditional metal fastener design.

- Made from stainless steel with corrosion-resistant coating.
- More “teeth” and sharper curves grip deck boards for a stronger hold to the joist.
- Keyhole design properly orients and seats the screw for optimal installation.
- Butt-joint fasteners eliminate the need to double joist.
- End clip fasteners eliminate surface fasteners on the beginning and end boards of the deck.
- Phantom GT fasteners work with deck surfaces and ramps only. Not for use on stairs.
- Phantom EC (End Clip) fasteners work with perimeter boards.
- Phantom 20EC (End Clip) fasteners are designed specifically for use with Promenade and Paramount[®] PVC perimeter boards.

Tiger Claw TC-G

- Made from stainless steel with corrosion-resistant coating.
- Use with Promenade and Paramount PVC deck boards for deck surfaces and ramps only. Not for use on stairs.
- See fastenmaster.com for purchasing options.

How They Work

Hidden clips ensure a smooth surface and more seamless transition from indoor to outdoor spaces.

For the Phantom Universal fastener, the clip is installed into the groove. Then, a screw is driven straight down into the joist (90° angle).

For all other Phantom and Tiger Claw TC-G fasteners, the clip is installed into the groove and a screw is driven into the joist at an angle.

Cortex[®] and Pro Plug[®]

Cortex and Pro Plug Hidden Face Fastening System

- Installed on the board's surface.
- Use with square- or grooved-edge boards.
- A color-matched plug made from Fiberon[®] decking minimizes the appearance of hardware.
- Pre-drilling is required at 40° or below. We strongly recommend pre-drilling in all instances.
- May be used on stairs.
- Not for use on fascia or risers.
- Fascia and Riser Pro Plug options also available.

Concordia composite decking, Symmetry Collection in Warm Sienna and Burnt Umber.
Consult the manufacturer for additional fastening options.

How They Work

Color-matched plugs camouflage screw heads across the deck surface, stairs and perimeter boards.

A special driving tip automatically puts the screw at a precise depth.

Then, the color-matched plug is tapped in with a hammer.

How to Purchase

Phantom® Universal Hidden Fasteners

- For deck surfaces and ramps only. Not for use on stairs.
- Available in boxes of 90 (50 sq. ft. of coverage) for up to 16-in. on-center installations.
- Also available in buckets of 900 (500 sq. ft. of coverage) for 16-in. on-center installations.

Phantom® GT Line Hidden Fasteners

- For deck surfaces and ramps only. Not for use on stairs.
- Available in boxes of 90 (50 sq. ft. of coverage) for up to 16-in. on-center installations.
- Also available in buckets of 900 (500 sq. ft. of coverage) for 16-in. on-center installations.

Phantom® EC (End Clip) Hidden Fasteners

- Use with perimeter boards.
- Available in bags (25 lineal ft. of coverage) that include 25 clips, 40 screws and a driver bit for up to 12-in. on-center installations.

Phantom® 20EC (End Clip) Hidden Fasteners

- Use with Promenade and Paramount PVC decking perimeter boards.
- Available in bags (25 lineal ft. of coverage) that include 25 clips, 40 screws and a driver bit for up to 12-in. on-center installations.

Phantom® Ballistic Nailscrew Driver

- Use with Phantom Ballistic Nailscrew fasteners.
- Kit includes driver, swivel hose fitting, belt hook, safety glasses, Allen wrench and oil.

Phantom® Ballistic Nailscrew Fasteners

- Use with Phantom Ballistic Nailscrew Driver to secure boards quickly.
- Available in 900-count buckets (500 sq. ft. of coverage) for up to 16-in. on-center installations.
- Bucket includes 800 stainless steel line fasteners, 100 stainless steel butt-joint fasteners, 950 Ballistic Nailscrews and two driver bits.
- Compatible for use on ACQ-treated wood.

Tiger Claw® TC-G Hidden Fasteners

- Use with Promenade and Paramount for deck surfaces and ramps only. Not for use on stairs.
- See fastenmaster.com for purchasing options.

Cortex® and Pro Plug® Hidden Face Fastening System

- Use to secure boards as well as stairs.
- Available in boxes (100 l/f of coverage for 12-in. on-center installations or 140 l/f of coverage for up to 16-in. on-center installations).
- Select colors available in buckets (300 l/f of coverage) that contain 1,050 2-1/2-in. screws, 1,200 color-matched plugs and six setting tools.
- Boxes contain 224 2-1/2-in. screws, 300 color-matched plugs and screw setting tools.
